Job Title: Maintenance Mechanic

Description & Duties: This position is responsible for safely providing maintenance support to our fast-paced Montgomery, IL box plant that is equipped with technology ranging from simple to state of the art for the corrugated industry. Utilize both excellent mechanical skills and knowledge (pneumatics, hydraulics, bearings, power transmission, lubrication) and electrical/electronics skills and knowledge (PLCs, A/C, D/C motors and drives, schematics) in our continuous process manufacturing environment to achieve machine uptime metrics. Work positively with maintenance and operations teams to troubleshoot and solve problems. Will be engaged in preventative maintenance processes in assigned areas.
