TSTM & PROJECT READY

YOUTH 6th -12th GRADE ARE WELCOME!

10AM ON SATURDAYS

QCUL Location:
1685 N. Farnsworth Ave. Aurora, IL 60505

TSTM and Project Ready prepare students for the future by combining academic support with real-world exposure. Through career exploration, students engage with professionals in STEM and other industries via field trips, supervised projects, and mentorship. College readiness is strengthened through tutoring, summer programming, and local and out-of-state college tours that expand their horizons. Students practice civic engagement by leading community service initiatives, developing leadership skills, and participating in cultural and professional development activities. Fundraising efforts empower students to take ownership of their experiences—raising funds for college tours, enrichment activities, and service projects that make a lasting impact.
